Diploma of Web development *// Studied at Natcoll Design Techonology*

Career Goals:

To establish a foothold in the busy field of Web Development by building contacts, gaining invaluable experience, and creating a respectable portfolio.
Some personal goals of mine, are in the near future become a master with Sublime Text 2 and Symfony.

I have Skills in:

• HTML, CSS : Website design and visual appearance
• PHP, Databases/MySQL : Website backend
• JavaScript / jQuery : interactivity / functionality
• HTML5/CSS3 : modern technologies / mobile site development
• Boilerplate, CodeIgnitor : MVC frameworks and their conventions and principles
• Client communication : Working on non-profit website during class time as the Client Manager

Additional Relevant Skills:

• Enjoys problem solving - 'outside-the-box' solutions
• Great team player, can work well within a team, including doing solo work
• Great Communication skills, able to to express a view to contribute to teams
• Strong attention to detail - ability to find bugs/typos/syntax errors
• Determined - Strive for perfection.
• Ability to touchtype
• Confident in trying new things, learns quickly, willing to extend skills.

Work I have done:

• Designed a site from the ground up, another incorporating the 960grid system
• Created in PHP my own 'Blog' complete with an admin login, ability to create/delete posts, show/hide comments, upload new images.
  - A Database system that records multiple pieces of information, using many-to-one and many-to-many relationships complete with the intermediate relation table.
    -The Database is also safe from HTML & SQL injection.
• Created a small mobile website utilizing the jQuery Mobile framework
• Created a basic e-commerce website with a user login and a shopping cart, with a separate admin price/product/type manipulation section.
• In process of creating a Portfolio Website for a Illustrator, using the CodeIgnitor framework
